From The President

I guess it is not too late to wish everyone a very happy and successful New Year 2008. For the BSDRA, the 2007/2008 term is soon coming to an end. Our dynamic team of 18 Committee Members have swum several oceans and climbed many mountains to bring the BSDRA and our community to a fabulous level in terms of security, environment and safety.

The BSDRA's achievements in enhancing neighbourhood security is extremely encouraging and something all of us can be proud of. The result of our close rapport and communication with the police has brought about considerable improvements in terms of increased police presence at BSD, information sharing, cooperation and fast response time. The fact that a group of house robbers and another group of bank robbers were nabbed just a few weeks ago in BSD attests to the effectiveness of the close cooperation and interaction between the BSDRA and the police.

The BSDRA is at present stepping up its efforts in striving to maintain and preserve the beautiful and green environment around BSD. We are continuously interacting with the MBPJ and Alam Flora to ensure the upkeep, clearing, maintenance and cleanliness of all the playgrounds and parks found in BSD. This is especially necessary as we have noticed that lately the cleanliness level has

declined. We are also talking to MBPJ in our efforts to tackle an increasingly disturbing threat to our clean and green surroundings - the indiscriminate illegal posting, hanging and erecting of advertisements, posters, signboards, billboards etc all around our township - even our trees and traffic lights are not spared!

With regards to safety of the residents, the BSDRA is continuously monitoring and giving feedback on faulty street lights, faulty traffic lights, pot-holes, overdue pruning of trees etc. to the MBPJ, TNB and Gumi Asli. So far, these two organizations have been very cooperative, responsive and efficient in carrying out defect rectifications, maintenance and renewal as necessary.

Although considerable achievement was made, there is still much more we all could do to enhance even further our quality of life as residents of Bandar Sri Damansara. It is my sincere hope that together we - the residents - will support and assist us in striving to achieve all our aspirations and goals. Finally I wish to thank all of you for your kind support, assistance and participation in the BSDRA and its activities and look forward to another fruitful year with you all.

K.N. Wong
