We Need a Library At Our Township

"The need for a knowledge based community is a must..." states our Government. To ensure that this statement does not remain rhetoric, the local authority should seriously consider the application of BSDRA to request for two libraries at our township - one at Persiaran Perdana and the other at the Persiaran Mahogany MBPJ Community Hall equipped with ICT equipment / facilities and books. It would also help alleviate the current problems with kids frequenting internet cafes or simply loafing around and getting into all sorts of trouble. Having a library will help to provide a beneficial alternative for kids and adults to spend their free time. This would help to inculcate a habit of reading in our young children and also adults who would in turn help contribute towards Government's vision of Malaysians evolving into a knowledge based community. It is also certainly much cheaper, productive and beneficial to provide and run a small community based library than to build racing tracks for Mat Rempits to hone their skills and create more havoc on our roads! So what do you say, MBPJ?

Residents please send your comments to ravindran@northport.com.my

Mind Your Parking

Notice the double-parking, haphazard and illegal parking at the commercial areas at Ara, Cempaka, Tanjung, Damar, Angsana and Dagang which is getting worse during peak hours lately? This results in interrupted flow of traffic leading to congestion, bad tempers and inevitably increased stress levels for everyone. To overcome this problem, BSDRA has written to MBPJ seeking more parking spaces to be designated at all our commercial areas and for the parking spaces to be re-aligned to become angular parking, so more cars could be parked at a given space. However, once this has been realized, we residents got to play our part too - to pay the minimal parking charges instead of trying to get away with free parking and ending up with a RM30 fine or compound! If you are compounded and if the parking attendant is around please purchase a RM5 parking coupon (parking ticket) immediately for the attendant to cancel your compound.
